**JAPANESE ARE MAKING RECORD.**

Of all the foreigners given aid by the legal advisory boards of the city and county exemption districts, the Japanese registrants take the record for promptness and reliability, according to members of the board. Many other foreign residents of Ogden come to the offices of the legal advisory board unacquainted with their questionnaires and knowing next to nothing about the meaning of the questions.

The Japanese come with their questionnaires entirely filled out and need the assistance of the legal adviser only to make out the oath or necessary affidavits. The secretary of the Japanese association of Ogden, Mr. Ushida, a graduate of the University of Chicago, has been assisting his fellow countrymen in this work and the local attorneys state that they have not found a single questionnaire with errors recorded in data or procedure.

**LIVESTOCK IS RUINING LAWNS.**

Complaint was made to Desk Sergeant Carey today that stray stock—cattle and horses—are ruining lawns in the eastern part of the city. According to the complaint, owners have permitted their stock to graze at will upon the lawns in the vicinity of the Eccles block—VanBuren and Jackson avenue and Twenty-fifth and Twenty-sixth streets. In some instances the animals have been hobbled so they would not stray from the vicinity where the grazing is good.

It is probable that a recurrence of the complaint will include the identity of the individual owners and prosecutions will follow. The custom, it is declared, has grown into a nuisance and is punishable as a misdemeanor.

## MOUND FORT JUNIOR HIGH SCHOOL TO OPEN MONDAY

After a half year consumed in repair work, re-construction and improvements the Mound Fort Junior high school will open for school at 9 o'clock on Monday, January 7. This school is one of the most beautiful buildings in the city and is modern in every respect. Its construction was made necessary through the expansion of the school population of the north part of the city and it is expected the building will be adequate to care for the increased number of pupils.

The school building comprises thirteen class rooms, an assembly room and a gymnasium with shower baths. It will take its place among the most modern school buildings of the state. The new structure is connected with the old Mound Fort school by a spacious hallway off from which are the toilets and heating plant. Two of the rooms in the old building have been remodeled and made into shops, one into a domestic art room and one into a lunch room. Two of the class rooms have been remodeled.

Proper lighting has been an important consideration in the construction of the North Junior high building. The upper half of all the windows is of glazed glass. This gives a softly diffused but ample light for the class rooms and will not strain the eyes of the students or teacher by a glaring flash of sunlight.

The Madison school building, which has also undergone extensive repairs and additions during the half year, will also be opened at 9 o'clock Monday morning. There has been delay on the part of the plumbers in getting their work completed, but the building has finally been placed in shape so that school may be opened Monday.

**CLOSING SESSIONS OF THE CITY BOARD OF COMMISSIONERS**

**WISDOM OF EXPERIENCE.**
